Subject: Revised SWRCB Order
Attachments: Lynn Florey.vcf; wro2009_0034exec.pdf; 5-28-09 SWRCB Order.doc

Good afternoon,

Attached are the revised State Water Resource Control Board Order and press release that we sent out that discusses some of the changes.

- The water conservation goals to reduce water use by 25% in Sonoma County and 50% in Mendocino County beginning April 6, 2009 did not change.
- Irrigating commercial turf grass within the SCWA service area is still prohibition from **June 15th** through October 2nd unless irrigation is managed with a water budget. Commercial turf is defined in Term 13 of the attached Order.
- We are compiling information for the 1st monthly report (Term 15 of the attached Order). Please forward the following information to me, if you haven't already sent it.
 - o Your agency's metered water data for April through September 2004
 - o Your agency's metered water data for **April 2009 and May 2009**
 - o Water shortage contingency ordinance/resolution and what level of rationing your Council/Board approved.
 - o Continue to compile information about any additional water conservation actions that your agency is taking and on your water waste reduction enforcement actions. I will send another email asking for this information by July 1st
- The next North Coast Water Conservation Meeting will be at 10am on June 25.

If you have any questions please email or call me.
 Thank you, Lynn

Lynn Florey
