

Russian River Water Supply System Tour

Saturday, October 16, 2010

The Sonoma County Water Agency invites the public to attend a **free half day tour of the Russian River water supply system on Saturday, October 16, 2010**. The tour will start at 9 a.m. and conclude at noon. The tour will include visiting facilities that divert, pump and treat the water we deliver to nine cities and water districts in portions of Sonoma and Marin counties. These facilities will include the rubber dam, fish ladders, infiltration ponds and water collector 6 – the largest water collector of its type in the world.

This is also a great opportunity to learn more about the **Russian River Biological Opinion**, a federally mandated 15-year blueprint to save endangered fish and ensure our water supply.

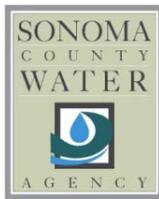

Space is limited and will be reserved on a first-come-first-served basis. **Please RSVP by October 4 by completing the below registration form.**

You will receive more information about the tour once you register. Please consider taking our tour and learn more about our water supply system. Thank you for your time and consideration.

Sincerely,

Grant Davis

Interim General Manager

Russian River Water Supply System Tour Saturday, October 16, 2010

Registration Form

Space on this tour is limited and will be reserved on a first-come-first-served basis. To attend the above tour, please complete the below form and return it by **October 4, 2010** to:
