Re: Conservation Measures 2009

Dear Lynn Florey;

Please find enclosed, the data that you requested from Geyserville Water Works. If you have questions please do not hesitate to contact me. You have my e-mail address and my phone numbers are: office 857-3163, cell 479-4056.

Yours truly,

Harry K. Bosworth

2. Water Quantities Pumped 2004

April	4,755,350 gal	May	7,343,150 gal	June	7,811,800 gal
July	7,678,180 gal	Aug.	9,591,770 gal	Sep.	6,841,570 gal

3. The method used to identify and prevent waste will be customer meter comparison, regular policing and neighborhood watch.

4. A notice of the possibility of water rationing was sent to all customers in the March 20th billing.

A notice that the State was demanding a 25% cut in the taking of water from the Russian River was sent to all customers in the April 20th billing.

A notice of comparison methods along with conservation tips will be sent to all customers in the May 20th billing.

Notices will continue to be sent in each billing as the summer progresses.

Customers not getting the message will be contacted personally.
