Total APNs	2,722	2,722	2,720	2,720	(0.07%)

E. Summary of Issues and Significant Changes

The Airport/Larkfield/Wikiup Sanitation Zone's (Airport SZ) treatment plant was designed as a zero discharge facility and has the ability to treat an average daily dry weather flow of up to 0.9 million gallons per day (mgd) to tertiary wastewater treatment standards.

For several years following major expansion of the Airport SZ's reclamation system and upgrade of the treatment plant to meet tertiary standards, rate increases did not keep pace with the increased operations and debt service costs. Various steps have been taken to improve performance of the filtration system and the Agency has implemented aggressive water conservation measures to delay the need for capital expansion projects.

The requested rate per ESD for FY 14-15 annual service charges is \$782, representing a 6.0% increase from FY 13-14. Rate increases in excess of the Consumer Price Index will be needed to balance operational revenue and costs over the next several years.

F. Summary of Reduction Options

No reduction options are proposed.
