

**November 4, 2013
WAC Agenda Item #5**

Summary
October 18, 2013
Water Supply Coordination Council Meeting

The WSCC is intended to coordinate activities of the Agency, WAC/TAC and other parties as necessary and to report on same pursuant to the Sonoma County Water Agency's September 15, 2009 Resolution #09-0871 to commence and continue development of new water supply projects, plans and strategies to meet the reasonably expected future water demands for the agency's water contractors. The WSCC makes no policy decisions. This WSCC summary is intended to disclose WSCC discussions with the WAC/TAC and other interested parties.

Attendees: Susan Gorin, Jake Mackenzie, Dennis Rodoni, Grant Davis, Jay Jasperse, Glen Wright, Chris DeGabriele

1. Review Summary of Last Meeting (August 2, 2013 Summary)
A summary of the August 2, 2013 WSCC meeting was reviewed.
2. November 4th WAC/TAC Meeting
The agenda for the Water Advisory Committee and Technical Advisory Committee meeting scheduled for November 4, 2013 was reviewed.
3. Water Supply
 - A. Water Supply Conditions
Grant Davis discussed the current water supply status. He advised that Lake Mendocino actual storage is approximately 2,250 acre feet above the critical storage curve. The cooperative water conservation efforts of the Water Contractors working with SCWA this summer have been successful, as indicated by the cumulative SCWA water production and the total potable water production by the water contractors (including SCWA deliveries) which are both below last year's totals. The Temporary Urgency Change Order period ends on October 28th. The Water Agency plans discussions with National Marine Fishery Service in the next weeks to determine appropriate flows in Upper Russian River for returning Chinook salmon.
 - B. Temporary Urgency Change Order – Term 17 Activities
A Water Supply Reliability Evaluation and report analyzing the potential impacts to Lake Mendocino storage due to climate change, future potential land use practices, and forecasted water demands, is due to the State Board by December 31, 2014. Jay Jasperse advised that the Water Agency is now meeting with entities on the Upper Russian River. A status report is due to the State Water Resources Control Board on December 31st of this year regarding evaluation of the long term reliability of Lake Mendocino to meet water supply and environmental water demands for Russian River water users above the confluence with Dry Creek.
4. Schedule Next Meeting
The next meeting will be held in January at a date yet to be determined and prior to the February 3, 2014 WAC/TAC meeting.
