

Water is...

Name: _____

Much of the Earth's surface is covered by water.

Color the water blue.

W _____ r is everywhere!

All living things need water.

leaves

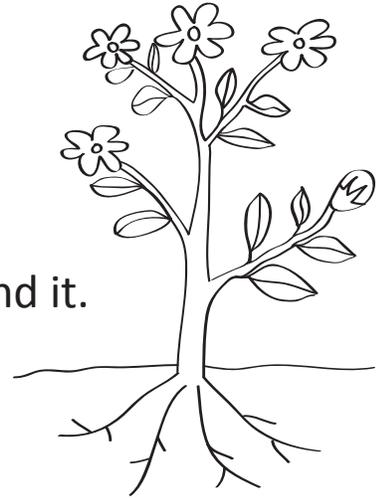

food

water

Every time you see the word plants underline it.

Every time you see the word **water** put a box around it.

Every time you see the word **food** circle it.

Plants are living things. Like animals, plants need **food**, but plants make their own food. How do plants make food? Plants use **water**, light, and air to make food. How do plants get water? Plants have roots that collect water and nutrients from the soil. Plants have leaves that gather light from the sun and take in air.

Yikes, water wasters!

Oh no! Some people are wasting water.

Can you find all 5 places where water is wasted?

Circle them.
