

Jenner Community Meeting Summer Activities in the Estuary

The Russian River Biological Opinion released last fall by the National Marine Fisheries Service (NMFS) requires the Sonoma County Water Agency (SCWA) to change the way it manages the sandbar at the mouth of the Russian River at Jenner. The Biological Opinion also requires SCWA to monitor and study the Estuary.

Join SCWA, NMFS and Stewards of the Coast and Redwoods for a community meeting on activities in the estuary this summer and how you can volunteer to assist with monitoring harbor seal haulouts on Sonoma Coast.

When: **6 p.m. – 8:30 p.m.**
Monday, June 22

Where: **Jenner Community Center**
10432 Highway 1
(Park across the street from gas station, walk
behind gas station and across foot bridge)
