Owner's responses to Bidder questions shall be for the purposes of interpretation and clarification of the Contract Documents only, and shall not be construed as changing, superseding, or contradicting any express term in the Contract Documents. If any Bidder believes that a response to a question warrants a change in any term in the Contract Documents, the Bidder shall so request the change be made in writing addressed to Owner and received no later than the latest date for submitting Bidder questions. In the absence of a change in any term of the Contract Documents, the express terms of the Contract Documents shall have precedence. Bidder questions are listed below verbatim.

A. TNT Industrial Contractors Inc.:

1. Is the project bid date going to be pushed back for the disinfection upgrade project?
Owner's response: Answered in Addendum Number 3.

B. Fort Bragg Electric, Inc.:

1. On page E04 (28 of 34) the detail showing CD-2 Flow Pacing is unclear. Please provide a description of the device that is depicted that mounts in the control terminal box. There is no information provided in the specification regarding this device.

Owner's response: This is in the Bidding Documents.

2. There are no control drawings and no information in the specification regarding control and SCADA work. Is there control and SCADA work as part of this project or is that work to be done by others?

Owner's response: Bid per Bid Documents.

3. Is there programming to the existing PLCs or SCADA system required as part of this scope of work?

Owner's response: Bid per Bid Documents.

4. There is a control and instrumentation section in the specification (13440 & 13446) However there are no instruments shown on the electrical drawings. Do these sections refer only to CD 1,2&3?

Owner's response: Bid per Bid Documents.

5. ON sheet E10 keynote 6 refers to 3/4" C-2-C/S. We do not understand this call out. Please clarify.

Owner's response: Answered in this Addendum above.

6. ON sheet E10 keynote calls out a 2" C 12CC cable. What is a CC cable?

Owner's response: Answered in this Addendum above.

7. The addendum I just received said no questions have been received since addendum 2. I have a number of questions that remain unanswered. Are my questions being processed?

Owner's response: Answered in this Addendum.

C. Mason Painting Inc.:

1. Spec section 09905 Painting and Coatings appears to be generic and list Items that do not exist; for example 3.1 A 11. Is there any coatings in Chemical Storage containment, UV Disinfection Basin or any other concrete coatings?

Owner's response: Bid per Bid Documents.

D. Aztec Constructors:

1. When we contacted the Ozonia Rep, he stated that the District will be purchasing the shop drawings and submittals direct, and will be furnishing them to the successful contractor.

According to Ozonia, the cost of those submittals is \$43,000 and is NOT included I their equipment quote.. This does not follow typical contract protocol, so is this actually the case?

Is the District purchasing and furnishing the Ozonia submittals to the low bidder

Owner's response: This is in the Bidding Documents.

E. Valentine Corporation:

1. Attached please find a letter from Zurich North America, our Surety, concerning the following sections of the specifications for this project:

- Section 00525, Assignment and Novation Agreement
- Section 0700-9.1.B, Extended Warranty

As Contractors mentioned in the Mandatory Pre-Bid Meeting for this project, the Assignment Agreement for this project is a very poor arrangement for General Contractors bidding on the project. The design, purchase order conditions and assignment agreement were all written and crafted by the District as the end user, yet the Prime Contractor is expected to assume all risk, responsibility and extended warranty conditions for the UV system with an agreement that clearly limits the liability of Ozonia, and not the Prime Contractor who is merely the installer!

The arrangement is bad business for the Prime Contractor and our Surety, Zurich, will not furnish us a bid bond for this project unless these conditions are changed to reduce the liability of the prime contractor for the UV Ozonia system. Some suggested changes that would allow us to bid the job would be:

- Eliminate the Assignment agreement and let the District furnish the equipment for installation by the prime contractor
- Or, require Ozonia to provide a 100% bond for their purchase order work that would be a part of the Assignment Agreement
- Or, change the purchase order so that Ozonia's liability is unlimited

Valentine Corporation would like to bid this project, but our Zurich will not permit it unless changes are made to reduce the Prime Contractor's liability for the Ozonia UV System. Please advise.

Owner's response: Bid per Bid Documents.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.

<http://www.wdol.gov/wdol/scafiles/davisbacon/CA9.dvb>

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
