

Owner maintains a list of entities that may be certified DBEs. These entities have been identified based on information available online through DBE resource associations or representations made on websites or through direct contact. Each DBE solicited and included in the Bid must be certified by the U.S. EPA, U.S. Small Business Association, U.S. Department of Transportation, or by another state, local, tribal, or private entity whose certification criteria match those of the aforementioned federal agencies. Evidence of such certification is required, and the certification must have been valid at the time of the Bid submission. Owner makes no warranty that this information is correct or up to date or that these companies are qualified to perform the required work. Bidder shall make its own assessment of a potential DBE entity's qualifications to perform the work and must verify DBE certification status. The preparation of this DBE Solicitation List by Owner shall not substitute for the Bidder's obligation to independently comply with all Good Faith Effort steps.

<b>North Bay Water Reuse Program - Sonoma Valley Reservoir R5 Project</b>
