Addendum Number 1 consists of 70 pages (size 8½" x 11") and 1 revised Drawing.

---

**I. General Changes**

- A. At all occurrences, change "Bay Water Reuse Program - Sonoma Valley Effluent Reservoir R5" to "North Bay Water Reuse Program - Sonoma Valley Effluent Reservoir R5."

---

**II. Changes to Prior Addenda**

- A. No changes.

---

**III. Changes to Introductory Information and Bidding Requirements**

- A. Document 00010 (Table of Contents)
  - 1. Delete Document 00458 (DBE Subcontractor Utilization Form)
  - 2. Insert the following between 01400 (Regulatory Requirements - Hazardous Materials) and 01420 (References and Definitions):  
01415 (Regulatory Requirements - Funding)
- B. Document 00100 (Advertisement for Bids)
  - 1. Modify Paragraph 6, as follows:  
~~Bidders may view Bidding Documents~~ are available in .pdf format on Owner's website: [www.sonomacountywater.org](http://www.sonomacountywater.org). The only way to ensure receipt of Addenda is to register as a Planholder with Owner. Bidders can register on the website or at Owner's office.

C. Document 00200 (Instructions to Bidders)

1. Modify Paragraph 20.C.2. as follows:  
Within the past ~~five~~seven years completed three construction projects of a similar nature and complexity with a contract dollar amount of at least \$500,000 each. For a project to be considered of similar nature and complexity for this subparagraph 0, it must include construction of an earthen reservoir with a storage capacity of at least 40 acre-feet or construction of a levee or earthen dam including a quantity of earthwork of at least 30,000 cubic yards.
2. Modify Paragraph 20.C.7.f.2) as follows:  
Minimum of three construction projects of a similar nature and complexity, completed within the past ~~5~~seven years.

Remove grub materials from Site.
  - D. Section 02300 (Earthwork)
    1. Modify Article 3.3, as follows:  
Article 3.3 FIELD QUALITY CONTROL
      - A. ~~Owner's~~ Extent of compaction testing will be as necessary to ensure compliance with Specifications.
      - B. Owner will perform Atterberg Limits laboratory test per ASTM D4318 ~~shall be performed~~ for every 1,000 cubic yards of material placed for classification of Type 1 and Type 2 fill materials.
      - C. Give minimum of 24 HR advance notice to Owner when ready for compaction or subgrade testing and inspection.
      - ~~D. Should any compaction density test, Atterberg Limits test, or subgrade inspection fail to meet Specification requirements, perform corrective Work as necessary.~~
      - ~~E. Pay for all costs associated with corrective Work and retesting resulting from failing compaction density or Atterberg Limits tests.~~
  - E. Section 15115 (Water Control Gates)
    1. Insert the following after Paragraph 2.3B. as new Paragraph 2.3C.:
      - C. Electric Operators:
        - 1) Electric motor-operated lift mechanism including electric motor, reduction gearing, stem nut, pedestal, torque and limit switches, enclosure strip heaters,

- reversing magnetic starter, local built in pushbutton control and indicator lights, shop wiring, gear case, and handwheel for manual operation.
- 2) Unit to be complete in a NEMA 4X enclosure requiring only the field connection of 3 PH, 460 V electric power.
  - 3) Gate operation speed: 12 IN per minute.
- F. Section 16265 (Variable Frequency Drives - Low Voltage)
1. Modify Paragraph 2.1.A., as follows:
    - A. Subject to compliance with the Contract Documents, the following manufacturers are acceptable:
      1. Cutler-Hammer.
      2. Square D Company.

## VII. Changes to Drawings

- A. Change occurrences of "Approved" to "Reviewed" in the signature block of each Drawing.
- B. Drawing G03
  1. Drawing Grid 2-C, change, "EXPORT PUMP NO. 1 (150 HP)" to "RECYCLED WATER PUMP (150 HP MAX)."
  2. Drawing Grid 3-C, change, "MAX WS EL. 32.0'" to "MAX WS EL. 31.5'."
  3. Drawing Grid 4-A, change, "HP: 150 HP" to "HP: 150 HP MAX."
- C. Drawing C01
  1. Reservoir R5 Capacity Curve, adjust "OVERFLOW (MAX WS)" from 32.0' to 31.5'. Insert new volume for MAX WS: "(108.67)"
- D. Drawing C04
  1. Drawing Grid 5-C, Typical Cross-Section "C," delete Note 1.
  2. Drawing Grid 4-A, Add the following paragraph as Note 3.
 

Benching into the reservoir core, reservoir embankments, or other existing slopes is required for slopes steeper than 5:1 in order to place and compact the fill in horizontal layers. Each bench shall extend at least 3 horizontal feet into the existing material and shall not exceed 12 inches in height.
- E. Drawing C05
  1. Remove existing Drawing C05 and replace with attached Drawing C05 marked "EFFLUENT STORAGE RESERVOIR SECTIONS AND DETAILS II" (11" x 17").
- F. Drawing C07
  1. Remove Detail 1, Reservoir Overflow Standpipe Detail, replace with attached Figure 1-1 marked "Addendum No. 1 Reservoir Overflow Standpipe Detail (Revised)" (8-1/2" x 11").
- G. Drawing C09
  1. 24" RESERVOIR OVERFLOW PIPE PROFILE, change overflow inlet elevation from "32.00'" to "31.5'."
- H. Drawing SP02
  1. Drawing Grid 2-C, Section A, add a 1" Air Release Valve (ARV) between pump discharge flange and the 12" Swing Check Valve.

**VIII. Question(s)/Answer(s)**

Owner's responses to Bidder questions shall be for the purposes of interpretation and clarification of the Contract Documents only, and shall not be construed as changing, superseding, or contradicting any express term in the Contract Documents. If any Bidder believes that a response to a question warrants a change in any term in the Contract Documents, the Bidder shall so request the change be made in writing addressed to Owner and received no later than the latest date for submitting Bidder questions. In the absence of a change in any term of the Contract Documents, the express terms of the Contract Documents shall have precedence. Bidder questions are listed below verbatim.

**A. Sukut Construction, Inc.**

1. In order to facilitate takeoffs for this project (especially the earthworks) will the District be able to provide electronic ACAD drawings for this project?

Owner's response:

Answered in this Addendum above.

2. There is a DBE good faith effort required for this project. What is the DBE participation goal?

Owner's response:

Bid per Bid Documents.

**B. Bid Ocean, Inc.**

1. What are the sizes and approximate lengths of the pipes to be installed on the project?

Owner's response:

This is in the Bidding Documents.

2. Are there any portions of the project that will need to be Bored?

Owner's response:

This is in the Bidding Documents.

3. Are the crossings to be Jack & Bored or Directionally Bored?

Owner's response:

This is in the Bidding Documents.

4. What are the approximate lengths of the portions to be bored?

Owner's response:

This is in the Bidding Documents.

## C. R.J. Gordon Construction, Inc.

1. Looking though the specs I noticed that page 458 (DBE Subcontractor Utilization Form) was not included, I also looked on your website it was not there either. And I was wondering what are your requirements for the DBE program?

Owner's response:

Answered in this Addendum above.

2. Please send me the Good Faith Effort Documentation. I cannot locate it on your website and I left a few people messages.

Owner's response:

Answered in this Addendum above.

## D. O.C. Jones &amp; Sons, Inc.

1. Where should Document 00210 and Certificate of Insurance be sent prior to the site visit?

Owner's response:

This is in the Bidding Documents.

2. Part D of the Statement of Qualifications for Construction Work states that the Prime Contractor must list three projects within the past 5 years in similarity, with a contract dollar amount of at least \$500,000.00 each, including construction of an earthen reservoir with a storage capacity of at least 40 acre-feet. We believe majority of the contractors on the bidder's list will not meet these qualifications since the size and dollar value for this type of project does not warrant contractors with that type of experience. Usually contractors with that experience due not bid on \$2.5 million projects but will on projects with a higher dollar value. Therefore we are requesting that this requirement be waived. Many contractors like ourselves have built projects like these but not three in the last five years.

Owner's response:

Answered in this Addendum above.

## E. Aztec Consultants

1. I have a question regarding the above referenced project. I see that there are two scheduled bid walks. Is it mandatory to attend both walks, or just one?

Owner's response:

This is in the Bidding Documents.

## F. Northwest General Engineering

1. Can you post your insurance requirements for this project?

Owner's response:

This is in the Bidding Documents.

2. There are various references to "Good Faith Efforts" in the documents. Under Section 200- Funding Requirements-#22-C there is mention of affirmative steps that need to be taken as described in Section 01415 and need to be done prior to bid opening. In reading

through Section 01415 I cannot find any instructions as to the steps that need to be taken. Is there a need for advertising or is a record of outreach to the list of subcontractors that you supply as well as others sufficient?

Owner's response:

This is in the Bidding Documents.

3. We are wondering what happens to the Financial Qualification information that is submitted with "Envelope B" if we are not the low bidder. The specifications indicate that except for the Apparent Low Bidder, Envelope B will remain unopened. Will this sensitive information then be returned to us? Will the County keep the information? If it does keep the information, what happens to it?

Owner's response:

This is in the Bidding Documents.

G. Tidelands Construction Company

1. I wanted to know if there is a Good Faith effort required for this job. I have researched the forms and found the DBE forms, but no indication that a Good Faith Effort was required.

Owner's response:

Bid per Bid Documents.

2. From what I can tell, the details concrete structural details of the 24" slide gate inlet structure appears to be incorrect on Sheet C05. The concrete footing based on the plans views (4/C05 and 1/C05) appears to be 7'wx9'1, the profile view (A/C09) has the length at 7'. Due to this, many of the other components of this structure also appear to be incorrect, ie the slope structure face (where the trash rack sits) has a 9" wide apron around it in the plan views, the profile view does not have it all 4 sides, but rather three only. Please confirm and correct details as required.

Owner's response:

Answered in this Addendum above.

H. Telstar Instruments, Inc.

1. Reference Specification page 13455-2 Paragraph 2.2.A.h  
Can you provide the Modicon Distributor with the part numbers for the Modicon I/O modules in the (E) Filter Building RTU.

Owner's response:

Bid per Bid Documents.

I. Valentine Corporation

1. What is the DBE participation goal and what are the Good Faith Efforts deadlines? Is there someone I can talk to about the minority participation requirements for this project?

I have reviewed Specification 01415 Page A 25 (e) and 01415 B54

Owner's response:

Bid per Bid Documents.

J. Able General Engineering, Inc.

1. We missed the advertising for the Pre-Bid meeting yesterday 2/17 and wanted to find out if there was going to be another pre-bid meeting next week on Tue or Thurs...

Owner's response:

This is in the Bidding Documents.

K. Ford Construction Company, Inc.

1. The location of the new reservoir has an old vineyard in it. It was mentioned that the existing vines are being removed. Are all the vines going to be removed? Are the fence posts and wire for the vines going to be removed?

Owner's response:

This is in the Bidding Documents.

2. Is it the intent for the project that the dirt quantity balances, i.e. there will be no export or import?

Owner's response:

Bid per Bid Documents.

3. Can the stripping be left on site, if so is there a preferred location?

Owner's response:

Answered in this Addendum above.

4. Will the existing material in the reservoir location make the specifications for the Type 1 and Type 2 embankment fill?

Owner's response:

Bid per Bid Documents.

5. Does the existing chain link fence get removed from between where the new chain link fence ties into it?

Owner's response:

This is in the Bidding Documents.

6. The existing vineyard irrigation piping is mentioned. This piping is not shown on the drawings, is there a quantity of main line piping and lateral piping that is required to be removed? If the main line piping is found to be ACP, how will the owner pay for the removal and disposal of this hazardous pipe?

Owner's response:

Bid per Bid Documents.

7. Is there construction water, i.e hydrant or other source, available for the contractors use in the construction of the reservoir?

Owner's response:

This is in the Bidding Documents.

L. Conco-West, Inc.

1. Does this project fall under the requirements of the Buy America Act since some of the funding is ARRA?

Owner's response:

This is in the Bidding Documents.

2. Contract time of 144 days is not enough time to attain submittal approval, procure required equipment and construct the project. Submittal submission and review could take up to 65 days of the 144 days leaving only 79 days for procurement and construction according to the specifications. Not to mention that the specifications allow for weather days that are already incumbured in the contract time, thus reducing the actual construction days further. We would assume that the pump, MOV's and electrical gear could require procurement times of at least 14 -18 weeks following approved submittals. This would require the contract time be extended at least to 270 days to allow for procurement, construction and startup and testing.

Owner's response:

Bid per Bid Documents.

3. Specification section 00450-10 requires experience of prime contractor to have atleast 3 projects within the last 5 years to include earthen reservoir of atleast 40 acre feet. We for one would probably not be able to meet this requirement and believe the agency is being very limiting in allowing experienced contractors to bid this project. We have constructed numerous projects requiring HDPE lined ponds over the last 10 years and probably have only one that would be close to 40 acre feet, but numerous smaller lined ponds at various WWTP facilities. We would request that you remove the limiting size of 40 acre feet.

Owner's response:

Answered in this Addendum above.

M. Ghilotti Construction

1. Where is the Class 2 Agg Base for the perimeter levee surfacing to be paid for?

Owner's response:

This is in the Bidding Documents.

2. Can the over-excavated material removed from under the new levees be re-used in building new embankments? If not, where is it to be stockpiled or hauled to?

Owner's response:

Bid per Bid Documents.

3. Under Specification Section 2300 - 3.3, Field Quality Control, it states that Atterberg Limits lab tests will be taken for every 1000 CY of material placed. Who will be responsible for taking these tests?

Owner's response:

Answered in this Addendum above.

4. Same Section 2300 – 3.4 – Compaction, compaction density requirements refer to ASTM D698 for maximum compaction test methods. Which test method will be required – Method A, B or C?

Owner's response:

Bid per Bid Documents.

5. There is only one cross sectional view of the concrete structure that holds the 24" inlet pipe, sliding gate and trash rack on sheet C05. Please provide a 90 degree cross sectional view of this structure similar to Detail A. We cannot discern what the trash rack sits on, how it is fastened and if there are side walls to the structure running parallel to the trash rack grilling.

Owner's response:

Answered in this Addendum above.

6. Please provide a better detail of the trash rack with regard to whether or not there are sides to the trash rack as is shown at the bottom of the trash rack in Detail A or if it merely sits atop of the parapet walls.

Owner's response:

Answered in this Addendum above.

7. According to the Geotech report for this project, SFB who conducted the initial borings for the project, converted boring B-2 to a piezometer during their field investigations. Could you please provide us with any current information pertaining to groundwater readings which have been recorded at this piezometer?

Owner's response:

Bid per Bid Documents.

#### N. Argonaut Constructors

1. We have received notice from our surety company that the current Payment and Performance Bonds (Document 610 and 620) that you are currently asking for on your proposals for the Reservoir # 5 and the sewer main project are an outdated version of the AIA Version 312. Would you consider updating your bonds to the attached 2010 version of the AIA 312?

Owner's response:

Bid per Bid Documents.

#### O. Jacobson Fence, Inc.

1. In section 02825 (Bid item #14) (Chain Link Fence and Gates) page 3 line N you call for Gates. I can not find any gates on the drawings.

Owner's response:

This is in the Bidding Documents.

2. No bid item number for the bollards?

Owner's response:

This is in the Bidding Documents.

3. Can not find any gates on the drawings, as called for in section 02825.

Owner's response:

This is in the Bidding Documents.

4. No item # for bollards.

Owner's response:

This is in the Bidding Documents.

**PART E: EXPERIENCE OF DESIGNATED SUBCONTRACTOR(S)**

The unique nature of this Project requires prior similar project experience of the designated Subcontractor(s), including the Bidder to the extent Bidder performs such Work itself, and the Key Personnel assigned. Summarize similar project experience below and provide the detailed project information requested:

**HDPE Geomembrane Liner Installer Subcontractor.** List three construction projects of a similar nature and complexity, completed within the past seven years. Indicate total square feet of HDPE geomembrane liner installed, and who was the superintendent and Client’s contact for each project.

Project Name	Construction Cost (\$)	SQ FT Installed	Year Completed	Name of Project Superintendent	Client’s Contact Name and Phone Number

List projects completed that total, in combination with the above-listed projects, installation of at least 10 million square feet of HDPE geomembrane liner. In addition, the HDPE geomembrane liner installation supervisor shall have worked in a similar capacity on at least three projects similar in nature and complexity to this Project. Indicate total square feet installed, and who was the superintendent and Client’s contact for each project.

Project Name	Construction Cost (\$)	SQ FT Installed	Year Completed	Name of Project Superintendent	Client’s Contact Name and Phone Number

**Experience of HDPE Geomembrane Liner Master Seamer.**

The HDPE geomembrane liner master seamer shall have completed a minimum of one million square feet of HDPE geomembrane liner seaming using the type of seaming apparatus proposed for use on this Project. Indicate total square feet seamed, and who was the superintendent and Client’s contact for each project. If a separate sheet is used, it must contain all of the following information:

Project Name	Construction Cost (\$)	SQ FT Seamed	Year Completed	Name of Project Superintendent	Client’s Contact Name and Phone Number

Project Name	Construction Cost (\$)	SQ FT Seamed	Year Completed	Name of Project Superintendent	Client's Contact Name and Phone Number

List Key Personnel that will be assigned to the Work:

Project Manager: \_\_\_\_\_

Project Superintendent: \_\_\_\_\_

HDPE Geomembrane Liner Installation Supervisor: \_\_\_\_\_

Provide information about the three qualifying projects listed above. Names and references must be current and verifiable. If a separate sheet is used, it must contain all of the following information:

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.  
-----

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

-----  
In the listing above, the "SU" designation means that rates listed under the identifier do not reflect collectively bargained wage and fringe benefit rates. Other designations indicate unions whose rates have been determined to be prevailing.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.

<http://www.wdol.gov/wdol/scafiles/davisbacon/CA9.dvt>

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

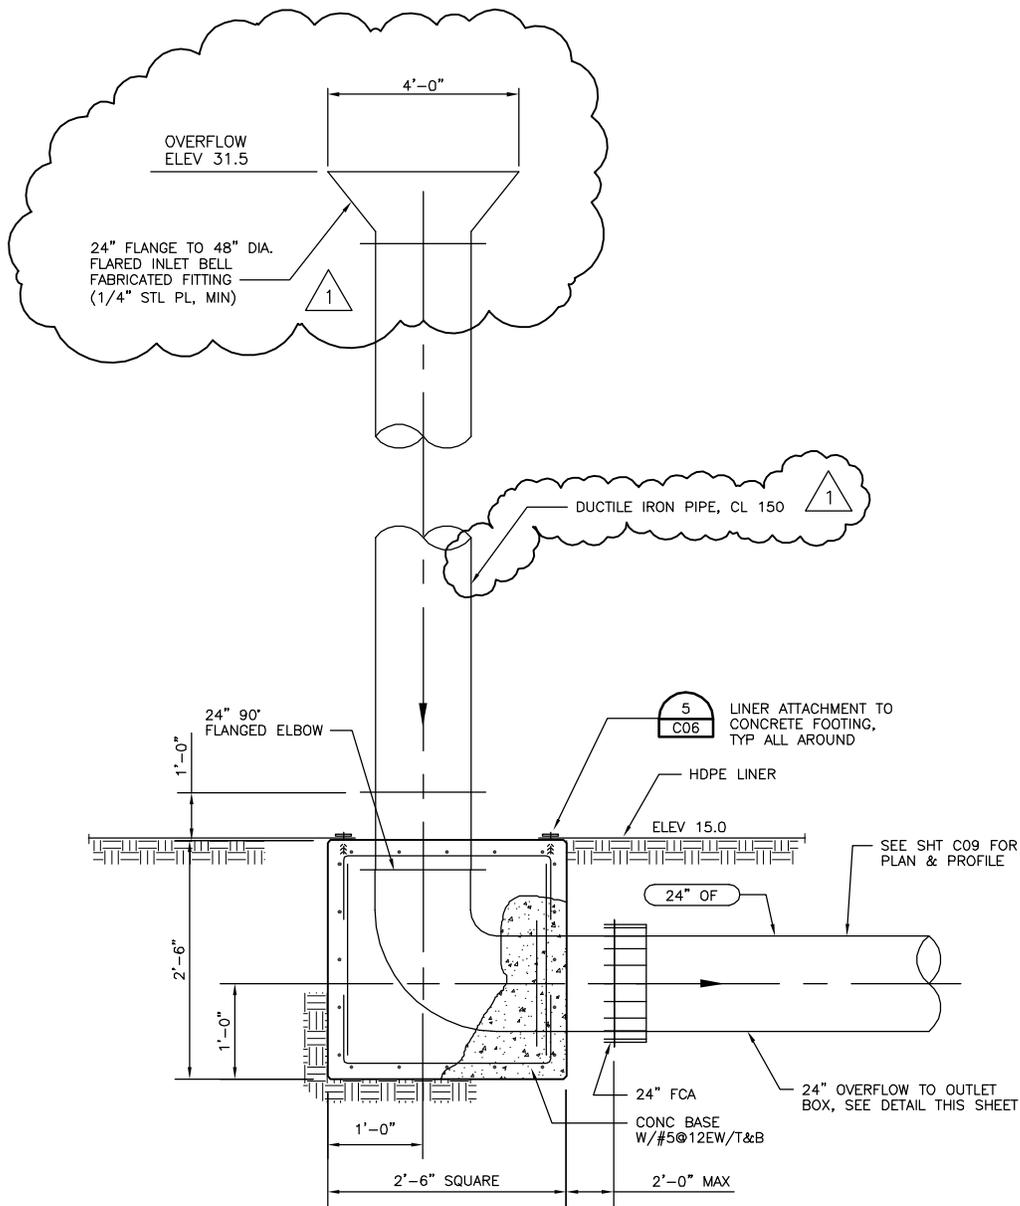

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
