**PROJECT:** MATANZAS REVEGETATION

**JOB:** 3719-05

**TO:** Attn: David D. McNabb  
McNabb Const. dba DK Environmental  
3286 Gloria Terrace  
Lafayette, CA 94549  
Phone: (925) 935-4200 Fax: (925) 952-4600

**STARTED:**

**COMPLETED:**

**REQUIRED:** 3/14/2008

## REMARKS:

The Agency has decided not to install willow baffles at this time, please sprig willows and plant in the low flow channel as originally planned.

The flagging for plants in Area A is acceptable. However, our inspector was informed by your foreman that the CA rose or CA blackberry haven't flagged yet, please complete the flagging before planting the rose and blackberry.

In related matter, upon completing the inspection Agency personnel found that the gate was locked and that the SCWA-labeled padlock was left out of the chain. Please remind our field personnel to maintain the "daisy-chain" of locks so that we don't lock out Agency or contractor staff. Thank you for your cooperation.
